DETROIT, Mich., July 25.—Detectives assigned to the task of identifying the man who shipped a trunk from Detroit on June 10, in which the mutilated body of a woman was found in New York, were tonight checking up statements said to have been made to Birmingham, Ala., police by Allen A. Tatum, a linotype operator of that city. The name given on the waybill on which the trunk was shipped bore the name "A. A. Tatum."

According to dispatches received by the police here. Tatum walked into police headquarters at Birmingham late Saturday and volunteered a statement. He is said to have told officers that he believed the murdered woman was Katherine Jackson, whom he met in Birmingham. He also admitted, the dispatches said, that he was acquainted with Eugene Leftoy, the name given by a man who rented an apartment at 105 Harper street, Detroit, the address given by "Tatum" on the trunk waybill.

Tatum first met Katherine Jackson in Birmingham, he said, in June, 1919, following their meeting he visited her several times, twice in Detroit. Police, checking up on his statements, have found that "Mrs. Katherine Jackson. Nashville," was registered at the Interurban hottel here October 39, 1519. Tatum said he again visited the Jackson woman here in June, 1920, at another hotel. She told him on that occasion, he said, that she was married, and that her husband was "extremely jealous."
